Abstract

PURPOSE:To obtain a lip stick overcoat capable of sufficiently preventing transfer of color and, simultaneously, having good adhesiveness as a cosmetic and having no problem in functional aspects, e.g. powdery feeling after applying, absence of transparency of a lip stick or discoloration of lip stick.

CONSTITUTION:This lip stick overcoat contains powder and a perfluoro compound. In the overcoat, particle diameter of the powder is 0.1-20.0µm and the powder is organic powder, and further, the powder is globular powder.
